

Basic Structures

For your more convenient to understand our shaded pole motors, we listed the 4 basic structures of them as following.

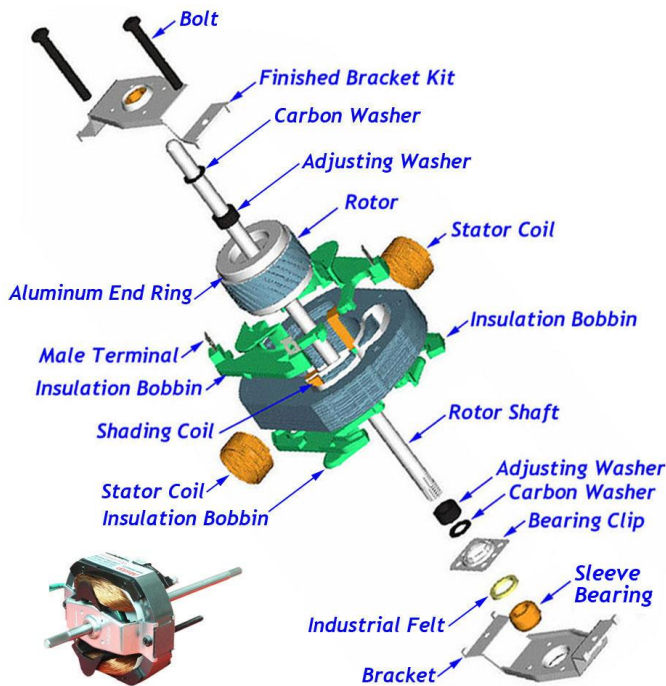

NSP58 Series

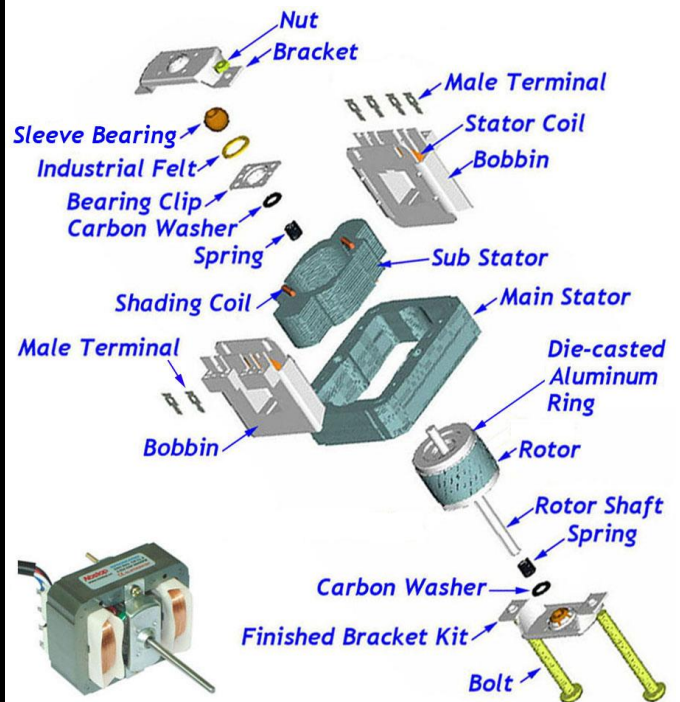

NSP63 Series

NSP83 Series

NSP84 Series

Remarks:

1. Motors of NSP48 series & NSP60 series have the same structures as the motors of NSP63 series;
2. Motors of NSP88 series are the same as the motors of NSP83 series. The only difference is: the NSP88 series of motors are mounted with 2 metal caps as the brackets, while the NSP83 series of motors are mounted with 2 metal brackets.
3. Any & all the above models can be equipped with many other accessories such as cooling fan, gearbox, etc.
